**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-9, 17-18, 21-27, drawn to a method for providing configurable access to media-on-demand system, classified in class 725, subclass 87.
  - II. Claims 10-16, drawn to a user-controlled media-on-demand system, classified in class 725, subclass 93.
  - III. Claims 19-20, drawn to a machine readable storage and code sections for providing configurable access to media in a media-on-demand, classified in class 725, subclass 91.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the invention II has a separate utility. The subcombination has separate utility such as a system for a user-controlled media-on-demand.
3. Inventions I and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2)

Art Unit: 2611

that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the invention III has separate utility. The subcombination has separate utility such as a machine readable storage and code sections for providing configurable access to media in a media-on-demand.

4. Because these inventions are distinct for the reasons given above and the search required for Groups I, II is not required for Group III, restriction for examination purposes as indicated is proper.
